800W High Power Full Frequency Wireless Signal Jammer JM110890  
2021/07/23

In today's various situations, the application of wireless signal jammers is crucial in various fields and industries. Check the details of the latest 800W high-power full-band wireless signal jammer as follows. This is a high power efficient jamming device that can be used to prevent harmful signals in VIP protection fleets, military exercises, city halls, police checkpoints, prisons, bomb disposal, and vehicles installed to block remote explosive devices. According to standard requirements, in the full frequency band of 20MHz-2500MHz, the interference range of high output power interference can reach 200-300m. With a well-designed cooling system, the device can run continuously 24/7. It is made of a sturdy, portable, and sturdy casing, which is easy to use and has better durability. Each module of the signal jammer is independently controlled. In the case of potential uncertainties (such as distance, intermediate obstacles, etc.), the blocking efficiency will be improved. Equipped with an omnidirectional antenna, the device can block wireless signals from 360-degree directions. If you are looking for professional VIP convoy security signal jamming, this high power wireless jammer will be a good choice with efficiency and reliability. At a Glance Each module is controlled separately. This jammer is covered with military rugged case, portable, shockproof. The frequency band could be added as customer's requirements. Perfect Alarm System, a fully protected circuit in case of disconnection of antennas. A better cooling system could work 24/7 continuously. Application: VIP convoy protection, Military camp, Government building, Police Checkpoints, Bomb disposal and vehicle mounting for military complexes. Filed Operation activity
