High-power Portable DDS Multi-band Bomb Jamming System JM110893
2021/07/24

1. It is both a bomb jammer and a high-power portable DDS Convoy jamming system. Portable radio frequency jammers and portable bomb jammers realize the most effective and reliable radio frequency interference technology and are equipped with a fully-integrated broadband jamming system. 2. It can continuously and simultaneously cover all RF communication frequencies from 20MHz to 3600MHz. 3. This all-portable multi-band DDS interference system uses a rugged and durable trolley case design, which is light in weight, highly mobile, and reliable. The device is equipped with 5 different interference modules, and the interference frequency can exceed 20 frequency bands. The maximum output power of the interference frequency module can reach 250-300 watts. 4. It is particularly easy to install and operate: just connect the selected antenna and activate the required frequency band. All operating controls and LED indicators are installed externally. The device is powered by an internal battery, or it can be powered by an AC power source or a suitable DC power source. 5. The overall design of the system meets military requirements and international quality standards and requirements. Our internal industrial quality management system guarantees the highest quality standards in terms of performance, reliability, and long life. At a Glance High-power portable multi-band jammer. Field programmability for rapid adjustment frequency with output Watt. Modular construction for easy maintenance, repair, and upgrade. Jammer up to five different jamming modules simultaneously, and cover up to 10 different frequency bands. Each module with LED display to show its working frequency, output power and etc. 250-300 watts total RF output power. Equipped with a remote control unit. The operator can ON/OFF each module through the wired remote controller. Fully portable trolley-type case. Internal battery, AC mains, or DC power. External LED display to indicate the battery level. Application areas: 1. Suitable for meeting rooms, conference rooms, museums, art galleries, theaters, concert halls, churches, temples, restaurants, classrooms, training centers, factories, banks, trains, buses, etc. 2. For some special purpose places, such as hospitals, gas stations, etc., please conduct field tests first to ensure that the normal operation of their equipment

and instruments will not be disturbed
