Portable Mini 2g/3g WiFi GPS Signal Jammer

2021/07/24

Product description: This is a mini hidden type jamming device. It has many advantages: First of all, the design of this device is very portable. It has very small size (95mm*48mm*17mm), can be easily put into pocket or backpack. Second, the device has a very strong concealment. The device looks like a portable power source, can ensure that you are not easily perceived by others during your use. Third, although the device is very small, but it can also jamming multiple signals. Whether you need to block cell phone signals or WIFI signals or GPS signals, this device can do it. Advantages: This product is all made of SMD and high-density integrated circuit. It has advanced performance, small size, easy to carry, easy to operate, equipped with one power and two charge, the battery can be opened and replaced by the slide cover, stable work and other characteristics. It can work when fully charged. About 2 hours, equipped with car charger and direct charge, to protect your whereabouts and information confidentiality, the production process of the whole machine strictly follows the ISO900 quality system, and through CE certification, the work is stable and reliable, is an ideal product to strengthen information security.

Application: 1. Various offices, confidential offices, negotiation rooms 2. Mobile political and business figures guard the scene 3. Party and government organs, various small or temporary meeting rooms of enterprises 4. Special needs in personal life or business
